Short description:

This is a design I built from scratch of Union Station located in Missouri

Description:

I wanted to test my skills in designing in Tinkercad and decided to create Kansas City's Union Station. It took about a week to build and 8 hours to print on the Ultimaker 2+. Created in Tinkercad using PLA filament.

If you can, please use the online documentation found at <http://www.youmagine.com/designs/union-station-kansas-city> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
